

ALL ABOUT SUZANNE

Welcome to Suzanne Villagonzalo's digital space!

Discover More →

Hello, I'm Suzanne Villagonzalo, a dedicated student pursuing a Bachelor's degree in Science in Information Technology at Jose Maria College. With a passion for excellence, I take pride in maintaining a consistent record as an honor student, earning a coveted spot on the Dean's List in the first semester and securing a place on the Administrator's List in the second semester.

Beyond the realm of academia, my life is enriched by the presence of five wonderful dogs who bring joy and companionship. While I excel in the dynamic field of Information Technology, boasting numerous badges attesting to my expertise, there's one thing I'm unapologetically certain about - my aversion to carrots. Being recognized as an outstanding student is a testament to my commitment to learning and academic achievement. I thrive on challenges and continuously seek opportunities to broaden my knowledge and skills in the ever-evolving landscape of IT.

SKILLS

- Networking:
 - Cisco Packet Tracer: Proficient in designing and simulating networks using Cisco Packet Tracer.
 - Network Basics: Strong foundation in fundamental networking concepts.
 - Networking Protocols Basics: Knowledgeable about essential networking protocols for efficient communication.
- IoT (Internet of Things):
 - Exploring IoT with Cisco Packet Tracer: Experienced in simulating and implementing IoT solutions within network environments.
- Technical Troubleshooting:
 - Basic Troubleshooting: Skilled in identifying and resolving common networking issues.
- Documentation and Communication:
 - Creating Compelling Reports: Adept at documenting and presenting technical information effectively.
- Network Management:
 - Network Addressing: Proficient in designing and implementing network addressing schemes.
